

Out With the Old – Get \$50 In With the New – Get Another \$50

SCE's Appliance Recycling Program Can Help You Save Money

You can receive a \$50 check for letting us pick up and get rid of your old, inefficient, working refrigerator or freezer. At no cost to you, we will dismantle and recycle these appliances in an environmentally-friendly manner.

Plus, you can receive an additional \$50 rebate when you purchase a new ENERGY STAR[®] – qualified refrigerator that is more energy-efficient and uses at least 20 percent less energy than conventional models.

SCE customers have turned in more than 800,000 old refrigerators and freezers through our Appliance Recycling Program. By getting rid of these energy guzzlers, those customers have lowered their energy usage and saved up to \$330 a year off their electric bills. In addition to saving energy and money, recycling an old refrigerator or freezer helps protect the environment.

To qualify for a free pick up, your old refrigerator or freezer must be in working condition, sized between 10 and 32 cubic feet, and located at a valid billing address within SCE's service area.

For more information or to schedule a free pick up of your old refrigerator or freezer, call **(800) 234-9722**, or visit www.sce.com/appliance.

Payment Arrangements and Extensions

If you are having difficulty paying your SCE bill, contact us to request a payment extension. We can also help you work out a more flexible payment arrangement. **(800) 950-2356**

Health and Safety Tips for Temperature-Sensitive Customers

Extreme hot weather may be harmful to people who are in poor health or those who are sensitive to high temperatures. Here are steps you can take to avoid heat-related illness this summer, should you be without air conditioning:

To help you stay cool in hot weather:

- Take a cool shower or bath;
- Wear lightweight, loose, light-colored clothing and a head covering;
- Stay out of direct sunlight and limit outdoor activity to covered or shaded areas;
- Drink plenty of water to stay hydrated;
- Visit a movie theatre, an air-conditioned mall, a library or a community center;
- Visit friends or family whose homes are air-conditioned and are located in areas not affected by severe weather or a rotating outage.

What To Do During Rotating Outages?

A rotating outage is a temporary and scheduled electricity outage that helps protect the integrity of the overall electric system. You can prepare for rotating outages by planning ahead: To learn which rotating group you or your friends and family members are assigned to, or to learn if there is a current rotating outage in your group, visit www.sce.com/rotatinggroup and type in your zip code.

Note: Rotating outages are designed to last no more than one hour. Customers in rotating outage group N001 are normally not subject to rotating outages. Your rotating outage group number is located at the top of your bill.

Cooling Stations

Customers who are temperature-sensitive may find it more comfortable to visit one of our "Cooling Stations" if rotating outages impact their residences. Cooling Stations are air-conditioned facilities providing temporary relief from the extreme heat. These facilities are normally exempt from rotating outages and are open to the public.

For a list of Cooling Stations, visit www.sce.com/planahead and click on **Volunteer Cooling Station Locations**. Or, call **(800) 655-4555** to obtain a list of Cooling Stations in your area.

Cool Centers

This summer, SCE will also open facilities called "Cool Centers", which may be especially helpful for residential customers who are income-qualified, seniors or those with special needs. The centers are designed to provide these customers with safe, air-conditioned locations to visit so they can save energy and money by not running their own cooling devices at home. Cool Centers are open from June 1 through October 15. To find a center near you, visit www.sce.com/coolcenters.

Advance Notification of a Rotating Outage

When possible, SCE will provide advance notice of a rotating outage via an automated telephone message to residential customers, or to someone in a customer's household who files an application certifying that his or her health is at risk when he or she is exposed to extreme temperatures.

Note: If you already participate in SCE's Medical Baseline program, you are automatically enrolled and do not need to complete this application form. Medical Baseline program participants receive advance notification, whenever possible, of rotating power outages that may affect them.

To sign up for advance notification, visit www.sce.com/planahead and click on **Extreme Temperature Sensitivity** notification service to download the application. Or, call **(800) 655-4555** to request an application.

Return the completed application to:
Southern California Edison
Temperature-Sensitive Customer Representative
P. O. Box 6400
Rancho Cucamonga, CA 91729

Upon receipt of your application, SCE will place your name on a calling list to receive advance notice, whenever practical, if a rotating outage is anticipated in your area. This service will be provided to you at no cost.

**SOUTHERN CALIFORNIA EDISON (SCE)
 NOTIFICATION OF CATASTROPHIC EVENT MEMORANDUM ACCOUNT (CEMA)
 APPLICATION FILING REGARDING
 PROPOSED INCREASE IN ELECTRIC RATES
 APPLICATION NO. A.10-04-026**

In compliance with California Public Utilities Code section 454.9 and California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed a Catastrophic Event Memorandum Account (CEMA) application. The application filing requests changes in SCE's electric rates due to the incremental costs associated with the restoration of service and repair of damage to its facilities resulting from the 2007 wind and firestorms. The application requests a one-time increase in SCE's revenue requirement of \$10.618 million, or 0.1 percent. If approved by the CPUC in 2011, this amount will be implemented in rates as soon as practical after the effective date of the decision.

Beginning on October 20, 2007, Southern California experienced a series of severe wind and firestorms that affected much of SCE's service territory. These storms caused significant damage to SCE's infrastructure and operations throughout its service territory. On October 21, 2007, the Governor issued a State of Emergency Proclamation for SCE's service territory in the affected areas of Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara and Ventura counties due to wildfires¹. On November 2, 2007 the Governor issued a State of Emergency Proclamation in Riverside County due to extremely damaging winds. In addition, President Bush declared a federal state of emergency on October 23, 2007, and then issued a "major disaster declaration" on October 24, 2007. In accordance with CPUC Resolution E-3824, SCE is requesting compensation through its Wind and Firestorm CEMA for incremental costs SCE incurred in restoring service and rebuilding its infrastructure during 2007 and 2008. These costs are not part of SCE's normal business and therefore are not funded through existing rates.

In the proceeding regarding SCE's 2007 Wind and Firestorm CEMA Application, the CPUC will determine the reasonableness of SCE's incremental costs in 2007 and 2008. Assuming that the CPUC finds SCE's CEMA costs reasonable, the estimated 2012 one-time revenue requirement increase associated with the 2007 Wind and Firestorm CEMA will be approximately \$10.618 million².

The proposed percentage increase in SCE's total revenue is 0.1 percent. Any revenue change resulting from this Application will be consolidated with revenue changes from other SCE applications. The following table shows an estimate of proposed revenues and rate changes by customer group:

CUSTOMER GROUP REVENUE IMPACT

Customer Group	Revenue Change (\$Millions)	% Change	Present Bundled Rates ¢/kWh	Proposed Bundled Rates ¢/kWh
Residential	5.249	0.122%	15.938	15.957
Lighting - Small and Medium Power	3.774	0.093%	15.287	15.301
Large Power	1.255	0.059%	10.827	10.833
Agricultural and Pumping	0.311	0.085%	11.577	11.587
Street and Area Lighting	0.029	0.021%	19.213	19.217
TOTAL	10.618	0.096%	14.326	14.340

On an illustrative basis, if total rates were to change as requested, an average residential electric customer using 600 kilowatt-hours per month in the summer would see an increase of \$0.18 per month, from \$99.12 to \$99.30.

¹Although the storms caused significant damage throughout the SCE service territory, only costs associated with repair and service restoration in those counties listed in the Governor's and President's emergency declarations (Los Angeles, Orange, Riverside, San Bernardino, Santa Barbara and Ventura) are included in this CEMA application.
²Includes Franchise Fees & Uncollectibles.

FOR FURTHER INFORMATION FROM SCE

You may review a copy of this Application and related exhibits at SCE's corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view these materials at the following SCE business offices:

THE CPUC PROCESS

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

EVIDENTIARY HEARINGS (EH's)

The CPUC may hold Evidentiary Hearings (EH's) whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). The EH's are open to the public, but only those who are formal parties of record may participate. The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the EH's. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SCE's request.

COMMENTS OR PROTESTS

You may submit written comments to the CPUC's Public Advisor's Office at the address or e-mail shown below. Please state that you are writing concerning SCE's application A.10-04-026. Your comments will become a part of the formal correspondence file for public comment in this proceeding. The Public Advisor's Office will circulate your comments to the five Commissioners, the ALJ, DRA, and to CPUC staff assigned to this proceeding. You may also write to the CPUC if you need advice on how to participate in this proceeding, or would like to receive further notices regarding the date, time, and place of any hearing on SCE's Application. You may also review a copy of this Application and related exhibits at SCE's corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). Finally, you may also review a copy of this Application and related exhibits at the CPUC's main office in Los Angeles listed below.
