**SOUTHERN CALIFORNIA EDISON COMPANY
NOTICE OF PROPOSED CHANGE IN ELECTRIC RATES
TO RECOVER THE COSTS ASSOCIATED WITH THE SAN ONOFRE
NUCLEAR GENERATION STATION UNITS NOS. 2 & 3 ON-GOING SEISMIC
PROGRAM, AND NEW SEISMIC RESEARCH PROJECTS AND ANALYSES
APPLICATION NO. A.11-04-006**

On April 15, 2011, Southern California Edison Company (SCE) filed an application with the California Public Utilities Commission (CPUC) seeking authority to recover the costs associated with the San Onofre Nuclear Generating Station Units 2 and 3 (SONGS 2 & 3) on-going seismic program and new seismic research projects and analyses. SCE's request was initially made in SCE's 2012 General Rate Case Application No. 10-11-015. However, pursuant to the CPUC's March 1, 2011 ruling in Application No. 10-11-015, SCE is making its request through a separate application.

SONGS is jointly owned by SCE, San Diego Gas & Electric Company, and the City of Riverside. SCE estimates that the total cost to the owners to perform the work requested in this application is \$64.0 million. This application requests authorization for SCE to recover its share (\$50.1 million) of the associated revenue requirements in rates. The total estimated cost of \$50.1 million will be recovered over a five year period. Therefore SCE will increase its revenue requirements by approximately \$10.0 million in 2012 and this amount will remain in rates through the end of 2016.

Compared to revenue at present rates as of March 1, 2011, this application could result in a revenue increase of approximately \$10.0 million, or 0.09% beginning in 2012 and continuing through the end of 2016. **If total rates were to change as requested, an average residential customer using 600 kilowatt-hours (kWh) per month would see an increase of \$0.16 per month, from \$103.50 to \$103.66.** The following table shows an estimate of proposed revenue and rate changes by customer group:

If approved, the proposed change in rates for each customer class is as follows:

	Revenue Change (\$Millions)	% Change	Present Rates (¢/kWh)	Proposed Rate (¢/kWh)
Residential	3,795.6	0.09%	15.98	16.00
Lighting – Small and Medium Power	3,599.2	0.09%	15.34	15.36
Large Power	2,217.6	0.11%	10.88	10.89
Agricultural and Pumping	338.3	0.09%	11.61	11.62
Street and Area Lighting	60.3	0.04%	19.25	19.25
Total	10,011.0	0.09%	14.38	14.39

EVIDENTIARY HEARINGS

If the application is accepted, the CPUC may also hold evidentiary hearings whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may participate. For information relating to the hearings, you may contact the Public Advisor's Office (PAO) at the address or phone number shown below. A separate notification to SCE customers regarding the date, time and location of these hearings will be sent as a separate bill insert, or will appear as a newspaper notification.

The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the evidentiary hearings. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SCE's request.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.
