

NOTICE OF CONSTRUCTION

Southern California Edison Red Bluff Substation Project (Associated with the Devers-Palo Verde No.2 Project)

About the Project – Southern California Edison (SCE) is currently constructing the Red Bluff Substation Project near Desert Center in Riverside County, California. Upon completion, the project will help bring renewable generation in the area to the power grid and help meet California's renewable energy goals.

Construction Period: September 2011 – December 2013, Monday through Saturday, 6:00 am through 7:00 pm
(Preliminary Schedule - *please note that the construction schedule may change depending on weather and other factors*)

Location: Red Bluff Substation will be located adjacent to the south side of Interstate 10 (I-10), east of Aztec Road, and west of Corn Springs Road, in unincorporated Riverside County, California.

Construction Activities:

Completed

- Installation of exclusionary fencing
- Distribution line construction

Ongoing - January 2012

- Installation of water production wells

January 2012 - December 2013

- Transmission line loop-in construction

February 2012 - April 2012

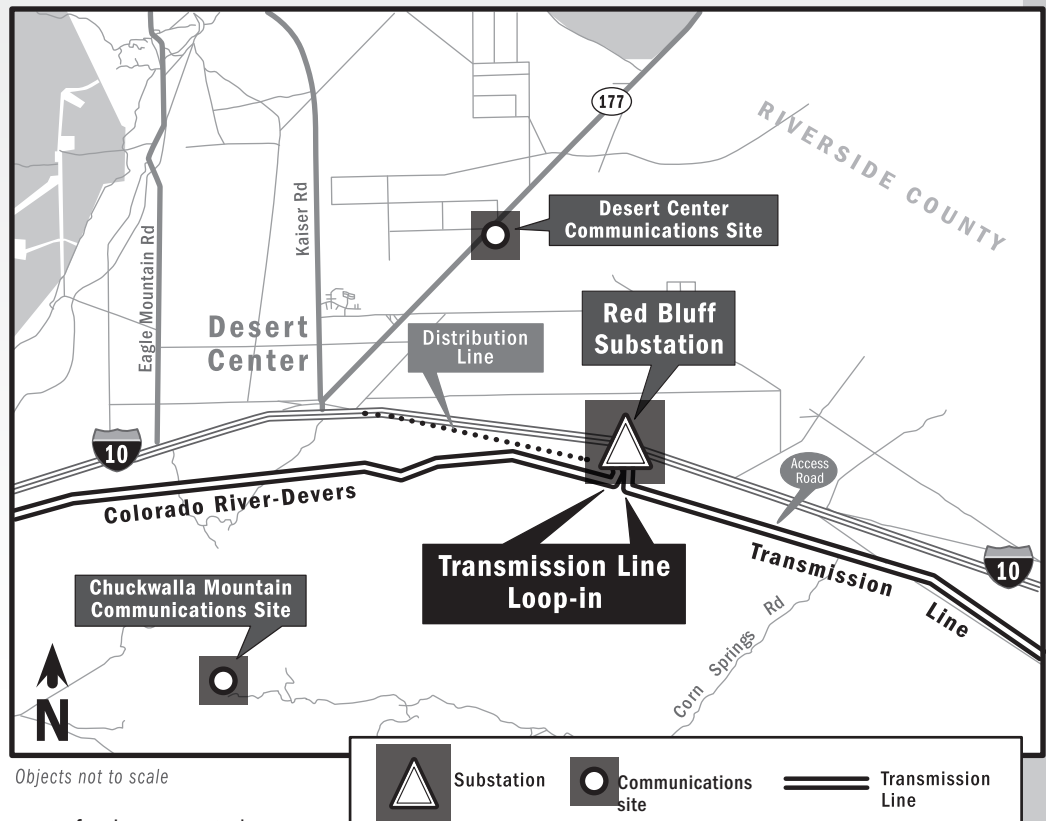

- Grading and site preparation

February 2012 - December 2013

- Substation construction

July 2012 - April 2013

- Chuckwalla Mountain and Desert Center communication sites

Every effort will be made to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to local residents. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
