

# Tehachapi Renewable Transmission Project

## PROJECT AT-A-GLANCE

The Tehachapi project is a series of new and upgraded transmission facilities spanning approximately 173 miles. The system upgrade is designed to deliver electricity from renewable energy generators in Kern County, as well as power added to the system from traditional generating sources, south through Los Angeles County and east to the existing Mira Loma Substation in Ontario, San Bernardino County.

## Our Commitment

We remain committed to working with communities along the project area to reduce, to the extent possible, the impacts of construction and minimize any inconvenience to residents and businesses during construction.

We will:

- Limit construction hours to comply with all relevant local regulations to the extent feasible; certain construction activities may require us to perform work outside of locally regulated work hours
- Implement dust control, noise abatement and other environmental protection measures
- Provide prior notification to affected property owners of construction activities
- Provide information to local communities on street closures or other activities that could temporarily limit access for area residents and businesses
- Provide contact information for SCE personnel who are available to answer questions that may arise during construction
- Ensure a safe and secure work environment during construction activities

If you have any questions about the scheduled work or other project-related activities in your neighborhood, please contact us at the project hotline at (877) 795-8787 or visit the TRTP website at [www.sce.com/trtp](http://www.sce.com/trtp).

TRTP construction crews regularly encounter a variety of wildlife, such as this black bear cub which was spotted in Duarte last September. Construction crews receive training on how to work safely knowing wildlife are in the areas we are building.

## Safety Corner

### SCHEDULE A SAFETY VISIT TO YOUR CHILD'S SCHOOL

Children often are fascinated by electricity. From how it works to how to stay safe, there's a lot to learn. We are happy to share our knowledge by sending one of our employees to speak at your child's school. Contact us 30 days in advance to schedule a speaker: [Speakers@SCE.com](mailto:Speakers@SCE.com)

## FACTS & FIGURES

# \$254,947,696

The number of dollars SCE paid in property taxes in the 2013-2014 tax year. SCE pays property taxes twice a year to each of the 19 California counties in which it owns land, land rights or facilities.

## GETTING READY TO GO GREEN: UPCOMING CONSTRUCTION ACTIVITIES

During the next three months, TRTP construction activities will include (please note that the construction schedule is tentative and may change depending on weather and other factors):

### SEGMENT 6

Northern Duarte and the southern portion of Angeles National Forest

- Major construction is complete
- Site stabilization and restoration is underway

### SEGMENT 7

From Duarte (north of Las Lomas Road) through Montebello Hills

- Major construction is complete
- Site stabilization and restoration is underway

### SEGMENT 8

From Montebello through Tonner Canyon

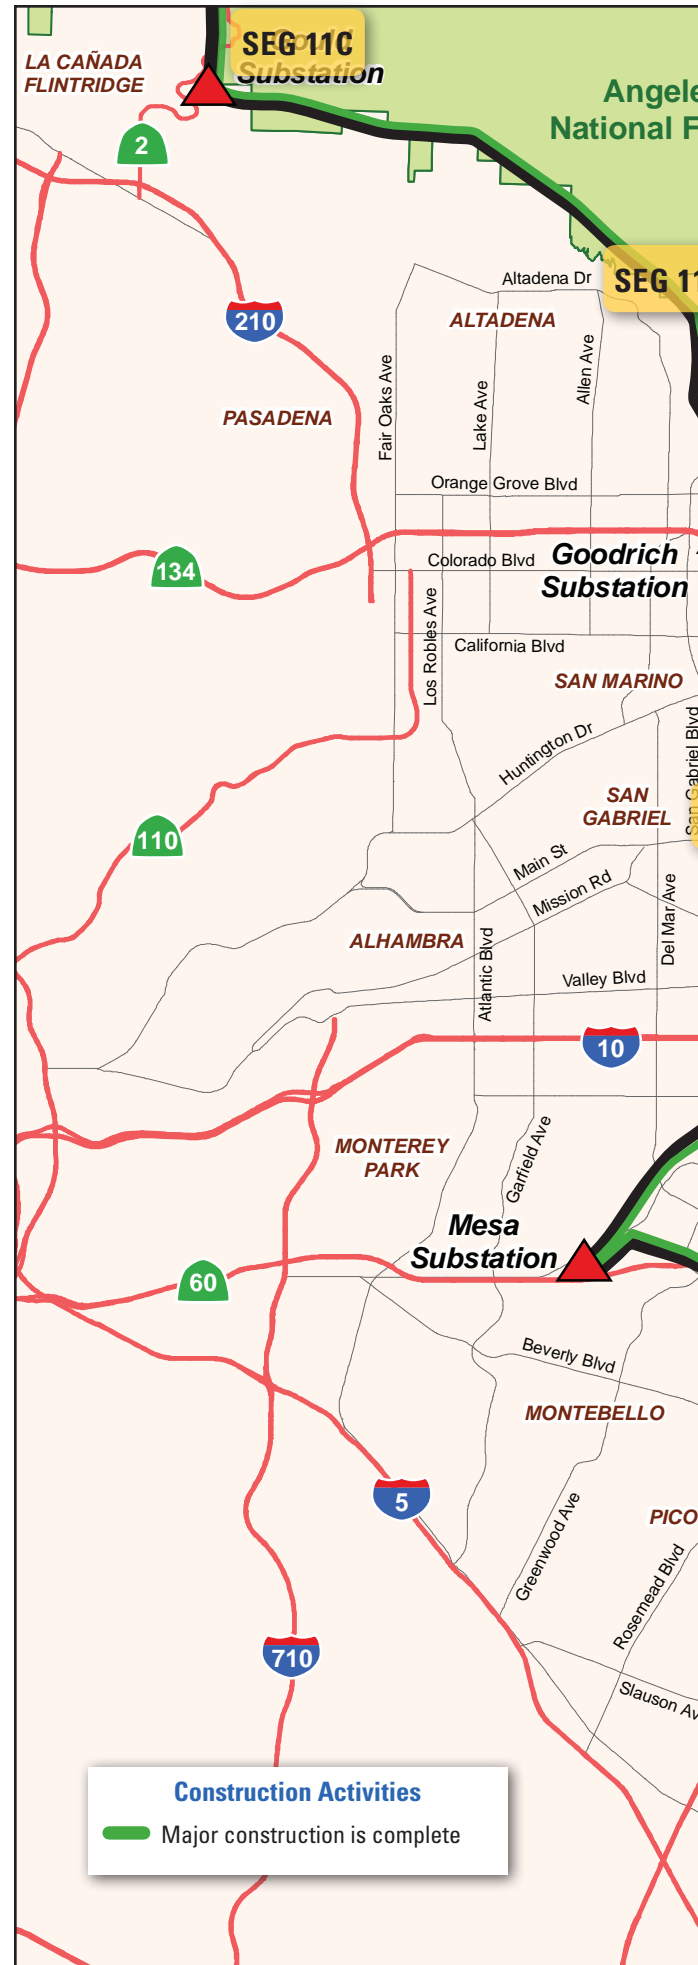

- Major construction is complete
- Site stabilization and restoration is underway

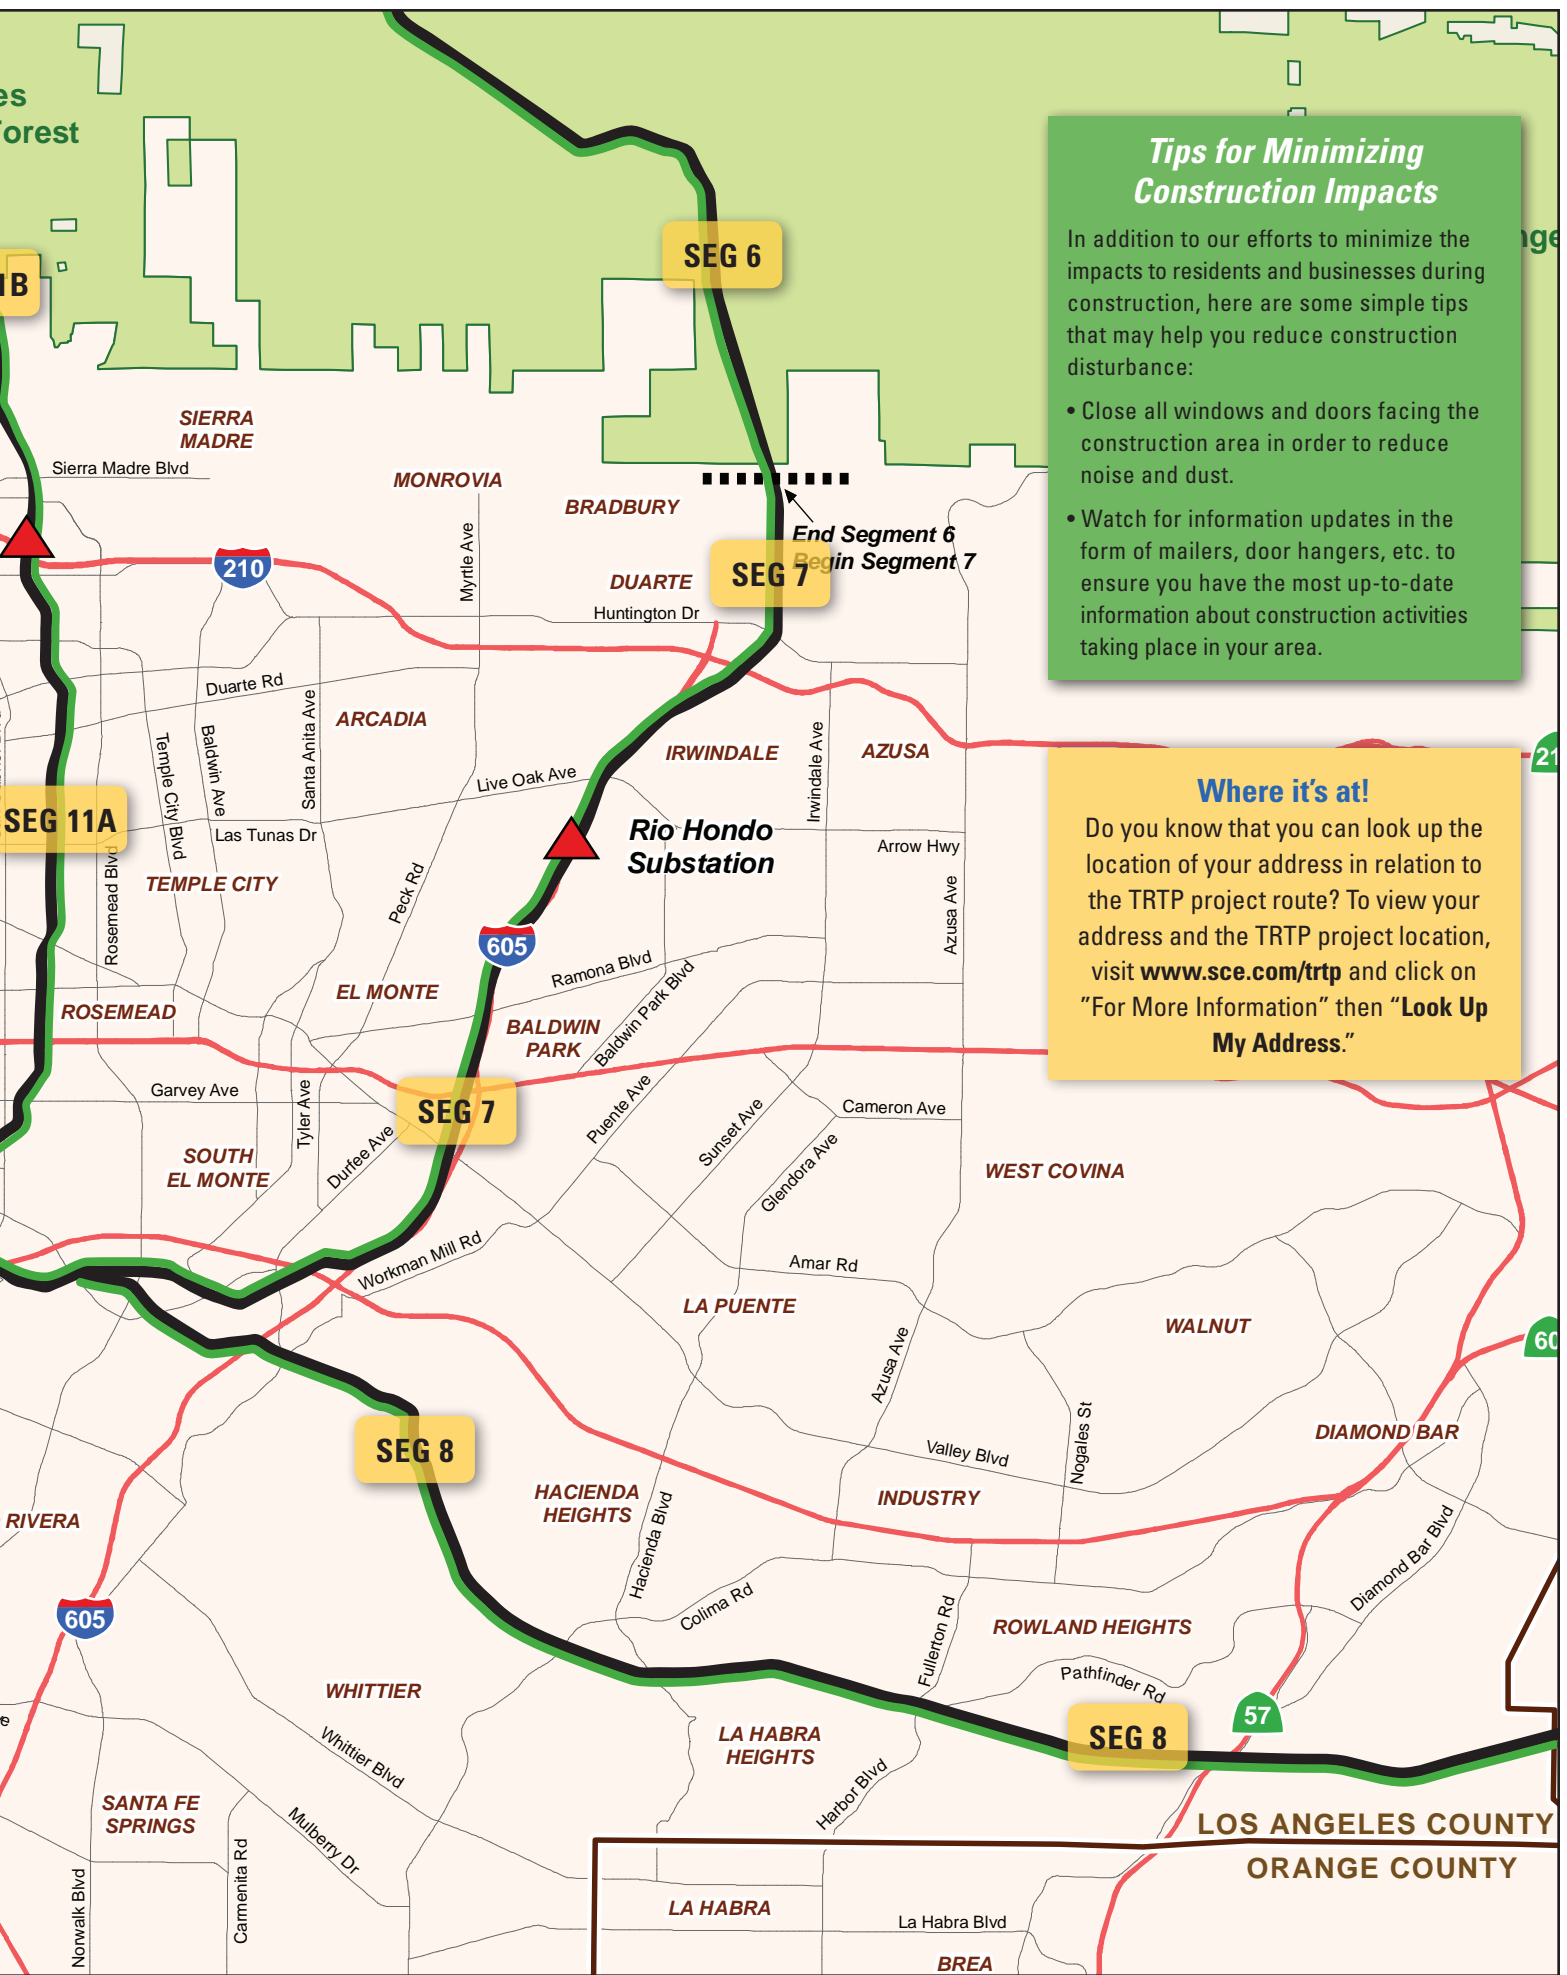

### SEGMENT 11

From La Canada-Flintridge through Montebello

- Major construction is complete

Every effort will be made to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to local residents. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.

### Tips for Minimizing Construction Impacts

In addition to our efforts to minimize the impacts to residents and businesses during construction, here are some simple tips that may help you reduce construction disturbance:

- Close all windows and doors facing the construction area in order to reduce noise and dust.
- Watch for information updates in the form of mailers, door hangers, etc. to ensure you have the most up-to-date information about construction activities taking place in your area.

### Where it's at!

Do you know that you can look up the location of your address in relation to the TRTP project route? To view your address and the TRTP project location, visit [www.sce.com/trtp](http://www.sce.com/trtp) and click on "For More Information" then "Look Up My Address."
