

NOTICE OF CONSTRUCTION

Southern California Edison's West of Devers Upgrade Project

Southern California Edison (SCE) has scheduled construction on a portion of the **West of Devers (WOD) Upgrade Project (Project)**. The Project will upgrade the existing transmission lines between the Devers, El Casco, San Bernardino, and Vista substations to increase system transfer capacity from 1,600 megawatts (MW) to 4,800 MW. The Project is located primarily within the existing WOD right-of-way in incorporated and unincorporated parts of Riverside and San Bernardino counties and includes modifications to SCE's existing telecommunications facilities.

Construction Yard Activities:

- Material delivery and storage.
- Preparation and assembly of materials and supplies prior to delivery to transmission line work areas.
- Construction offices and as marshalling locations for construction personnel throughout the duration of project
- Vehicle and equipment maintenance and fueling.
- Temporary helicopter operations including landing and fueling including equipment and material delivery from construction yards to construction sites.

Locations Scheduled for Construction Yard Work Activities from mid-February 2018 through the end of December 2021:

- ❖ **Beaumont 2 Yard** – Located at 852 E. 3rd Street, West of Pennsylvania Avenue and East of Maple Avenue in the City of Beaumont, CA.

Most work activities will be conducted Monday through Saturday from 6:00 a.m. to 7:00 p.m. Occasionally, as project conditions require, work will occur on Sundays and overnight.

SCE's Commitment and You

SCE understands that construction can potentially be disruptive to daily activities. The company is committed to ensuring the communities' safety and, to the extent possible, minimizing inconvenience. SCE is committed to working with the community to minimize the impacts of this Project and will use its best efforts to schedule construction activities to avoid heavy traffic periods, including major holidays.
