

NOTICE OF CONSTRUCTION

Southern California Edison West of Devers (WOD) Upgrade Project Activity

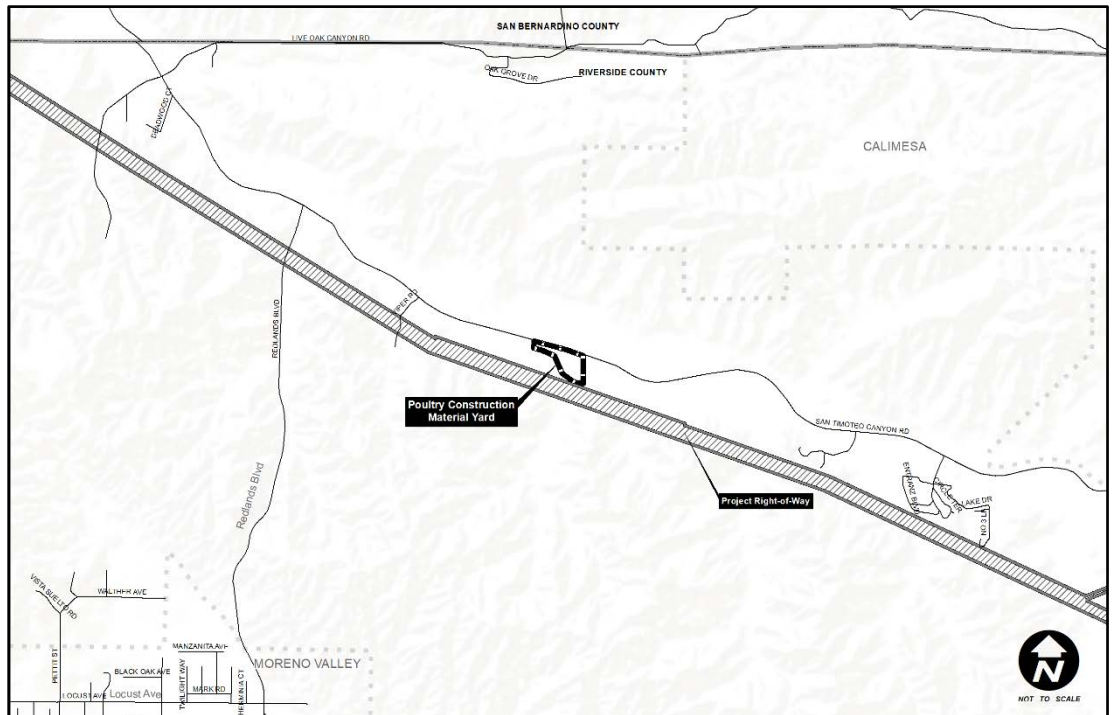

Southern California Edison (SCE) is building the West of Devers Upgrade Project to provide the additional capacity necessary to bring renewable and conventional generation being developed in desert areas around Blythe and Desert Center, California. These significant upgrades will enhance electric reliability for all customers and help to make the power grid greener for California.

Commencement of Helicopter Operations: Intermittently between October 2018 – December 2022 – Most work activities will occur Monday through Saturday from 7:00 a.m. to 6:00 p.m. Occasionally, as project conditions require, work may occur on Sundays.

Locations Scheduled for Helicopter Operations: *October 2018 through December 2022* Helicopter operations will originate at local area hangers and utilize the Poultry Construction Material Yard in Redlands as a base of operations, before heading out to the Project Right-of-Way.

Scheduled Activities: Helicopters will be used to support construction activities.

Every effort will be made to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to residents, businesses, and visitors. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
