

## NOTICE OF CONSTRUCTION

### Southern California Edison West of Devers (WOD) Upgrade Project Activity

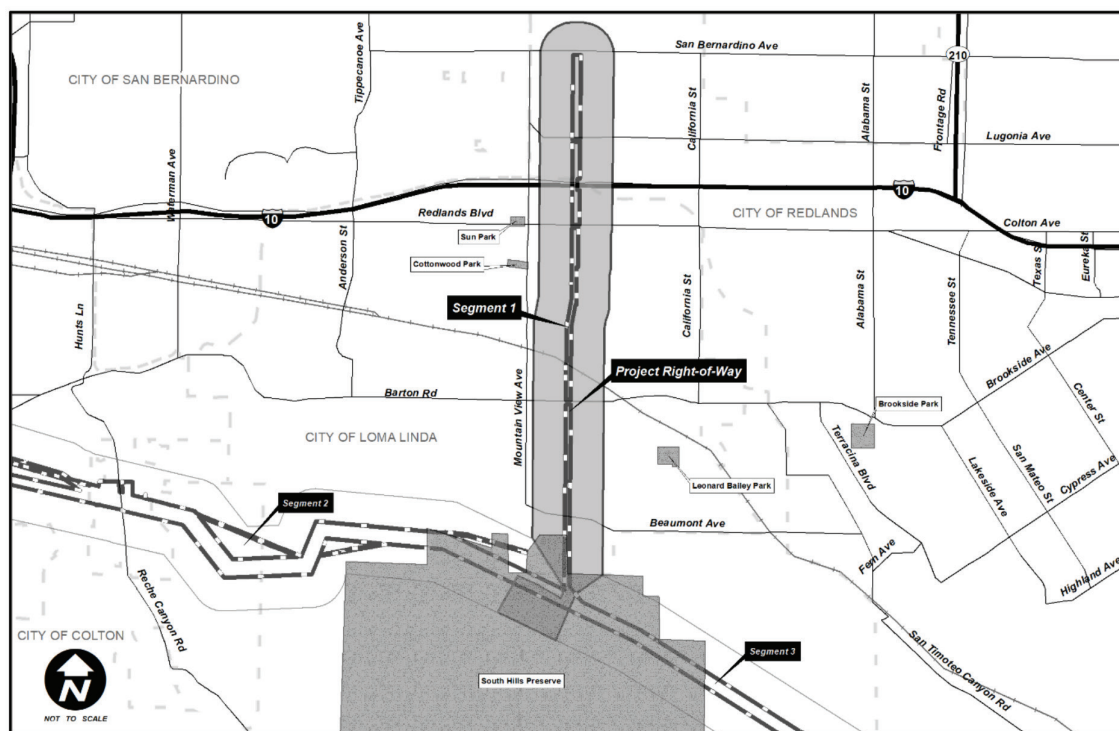

Southern California Edison (SCE) is building the West of Devers Upgrade Project to provide the additional capacity necessary to bring renewable and conventional generation being developed in desert areas around Blythe and Desert Center, California. These significant upgrades will enhance electric reliability for all customers and help to make the power grid greener for California.

**Transmission, Distribution, Subtransmission and Telecommunication Improvements: Intermittently between August 2018 – December 2022** – Most work activities will occur Monday through Saturday from 6:00 a.m. to 7:00 p.m. Occasionally, as project conditions require, work may occur on Sundays and overnight.

**Locations Scheduled for Transmission, Subtransmission, Distribution and Telecommunications Improvements within the Project Right of Way in the cities of Redlands and Loma Linda:** August 2018 through December 2022 within the Project Right-of-Way, south from San Bernardino Avenue to Beaumont Avenue.

#### Scheduled Activities:

- Site preparation
- Removal and replacement of overhead lines
- Modification, installation and removal of poles and towers
- Foundation installation
- Counterpoise installation
- Shoo Fly installation and removal
- Helicopter operations
- Wire Stringing
- Transmission wire and optical ground wire pulling and splicing
- Restoration activities
- Impacts to Recreation Areas: for your safety construction may limit access to walking paths within the project right-of-way, please comply with signage and directions given by construction personnel

**Every effort will be made** to reduce the amount of noise generated by activities related to construction. SCE understands that construction may be inconvenient to residents, businesses, and visitors. We greatly appreciate your patience as we move to complete construction as quickly and safely as possible.
